Description of Service

Asesoria Madrid: impacto GUIAS ESMO en el treatment landscape CUa: Obtener insights sobre el impacto que tendrán estos competidores

Advisory Board Participation Asesoria Madrid: impacto GUIAS ESMO en el treatment landscape CUa - ACT29730

Is the activity related to an approved PSP?

NA

en la práctica clínica y en el algoritmo de tratamiento. Además perfilar la paciente candidato a BAVENCIO. Dichos insights se utilizarán para adaptar nuestra estrategia 2024 y el diseño del Brand Plan 2025. Además tambien para adaptar el plan táctico 2025

Business Needs and Expected Outputs

En marzo se publicaron las GUIAS ESMO posicionando EV+P como el estándar de tratamiento en CUa y dejando a avelumab en aquellos casos en donde el tratamiento de referencia esté contraindicado (sin especificar en qué perfiles de pacientes EV+P está contraindicado) Por otro lado posiciona al mismo nivel que avelumab nivo+cis+gem (combinación que todavía no está aprobado por la EMA) Con todo ello vemos la necesidad de analizar: Impacto actual de las guías en la práctica clínica actual y los drivers para la toma de decisiones de los fármacos Perfilar al paciente contraiindicado a EV+P (no aparece descrito en las guías) Entender aplicabilidad de las guías a la práctica y revalidar la estrategia que teníamos diseñada para 2024.

Is this activity connected to a Collaborative Working project?

No

To your knowledge, has an activity in your department addressed the same topic during the past 12 months?

No

To your knowledge, has an activity in another department addressed the same topic during the past 12 months?

No

Activity Logistics

Will food or beverage be provided or potentially provided in association with the activity?

No

Will we arrange and/ or reimburse (or potentially arrange / reimburse) travel arrangements in association with the activity?

Yes

Will accommodation be provided in association with the activity?

No

Please provide additional information / detail regarding the travel arrangements to be provided (e.g., types of travel, participants requiring travel arrangements)

Attestation

Due to variable global regulatory environments, there may be country specific-requirements that must be satisfied to compliantly execute the planned activity. If you are unsure whether your activity is subject to country-specific requirement, please contact your country's or function's Compliance partner for consultation.

By completing this information, I attest and confirm to the best of my knowledge, that:

- There is a legitimate business need for conducting this activity;
- The venue and circumstances of the program are conducive to the activities that are the primary focus of the meeting, and the program occurs in venues conducive to professional exchange, such as conference rooms;
- Most of the invitees are from outside the affiliates home location and, given the locations of origin of most of the invitees, it is more appropriate from a travel, expense, and convenience perspective to hold the event in another location; or
- Given the location of the relevant resource or expertise that is the object or subject matter of the event, it is more appropriate from a travel, expense, and convenience perspective to hold the event in another jurisdiction;
- The included data and information are complete and correct, and that the interaction is compliant with all Merck policies and procedures
