Description of Service

Ana: Biomarcadores David: Cáncer de próstata Los servicios prestados por los formadores será una impartir una formación presencial sobre cada uno de los temas (biomarcadores en colorrectal y su aplicación en la práctica clínica y el abordaje terapéutico del cáncer de próstata).

Formación Interna Biomarcadores, Pipeline y Próstata - Med. Affairs – ICSO - ACT78498

Business Needs and Expected Outputs

El abordaje actual en cáncer colorrectal está centrando su interés en las mutaciones de biomarcadores emergentes las cuales tienen un impacto directo en el manejo y en el tratamiento del CRC. Los distintos roles dentro del departamento médico necesitan conocer y comprender bien las implicaciones en la práctica clínica de estos biomarcadores, su manejo, y en qué se traducen las mutaciones en la práctica clínica real desde el punto de vista de un experto en la materia. En referencia a la formación del pipeline, los fármacos en desarrollo de Merck dentro de oncología abarcan distintas indicaciones: cáncer colorrectal, próstata, pulmón y ovario. La gran variedad de indicaciones nos obliga internamente a comprender y entender el manejo clínico de dichas indicaciones, las cuales no forman parte de nuestras principales áreas de conocimiento, al no ser el foco de nuestros productos en promoción. Es por esto por lo que es necesario realizar una formación interna en los aspectos más importantes para conocer el manejo del cáncer de ovario. La formación especializada impartida por un experto tanto en biomarcadores como en cáncer de ovario va a contribuir a mejorar el entendimiento de la práctica clínica del personal interno del departamento médico y de investigación clínica, lo cual repercutirá en un mejor soporte de nuestros recursos de cara a nuestras interacciones científicas con los diferentes interlocutores en nuestro trabajo diario, tanto en las interacciones científicas relacionadas con el cáncer colorrectal como en las formaciones reactivas centradas en el pipeline.

Is this activity connected to a Collaborative Working project?

No

Is this activity connected to an approved PSP?

No

Activity Logistics

Activity Logistics

Is there any hospitality associated with this provision of services? e.g., transportation, accommodation, meals

Yes

Will food or beverage be provided or potentially provided in association with the activity?

No

Will accommodation be provided in association with the activity?

No

Will we arrange and/ or reimburse (or potentially arrange / reimburse) travel

Please provide additional details regarding the name and date(s) of the connected activity(ies) / event(s)

Transfer para la Dra. Ana Lopez en servicio de ida y vuelta desde Burgos a las oficinas de Merck el día 24 de Febrero. Transfer para Dr. David Olmos para el día 25 de Febrero.

Please provide additional information / details regarding the travel arrangements to be provided (e.g., types of travel, participants requiring travel arrangements)

Agenda & Materials

Activity Agenda / Concept Summary Overview

Formación Biomarcadores: Fecha: Lunes 24 de Febrero. Hora de inicio de la formación: 15:30 Duración: 3 horas. Foco de la formación biomarcadores: Mutaciones en BRAF, KRAS, HER-2 foco especial, PI3K, Fusiones NTRK, MSI. Objetivos: • Conocer bien la aplicabilidad y el abordaje en la práctica clínica de los biomarcadores en cáncer colorrectal, tanto los clásicos como los emergentes. • Entender bien cómo se determinan (a un nivel básico), cut-offs (para el caso de HER-2 en CRC), consideraciones relevantes de cara al informe molecular. • Áreas grises existentes actualmente en la práctica clínica. Para el caso particular de HER-2, conocer el impacto de las posibles resistencias adquiridas al antiEGFR. Formación Cáncer de Próstata. Martes 25 de Febrero: Duración: 3 horas Agenda: Epidemiología del cancer de próstata Fisiopatología del cancer de próstata Abordaje terapéutico del Ca de próstata Tratamiento sistémico Perfiles de pacientes

Cetuximab as a key partner

Attestation

Formación Interna Biomarcadores, Pipeline y Próstata - Med. Affairs – ICSO - ACT78498

"Due to variable global regulatory environments, there may be country specific-requirements that must be satisfied to compliantly execute the planned activity. If you are unsure whether your activity is subject to country-specific requirement, please contact your country's or function's Compliance partner for consultation.

By completing this information, I attest and confirm to the best of my knowledge that:

- There is a legitimate business need for conducting this activity and the service providers have deep knowledge and experience regarding the therapeutic area or topic on which they are consulted.
- The included data and information are complete and correct, and that the interaction is compliant with all Merck policies and procedures and other applicable Laws and Codes."
